**PERFORMANCE OF THE INSTITUTION IN ONE AREA DISTINCTIVE TO ITS VISION,
PRIORITY AND THRUST**

The institute has revised its objectives according to the changing scenario without deviating from its focus from the socially and rural backward classes. Our vision is Man Making and Nation Building. In this view we create a system that build the professional character of the students and thus built up nation. This means that development of a nation is not possible without development of the students through Man making education. The man making education by which we can make a system to promote the acquisition of the knowledge and to offer the opportunities for upgrading the knowledge, training and skills in all fields of human Endeavour by developing the educational network with use of professional bodies. It shows the urgency of acquisition of knowledge and skills in all fields. Training provided to the students with these objectives could offer them different opportunities of career. Keeping this in mind, IQAC initiated the drive of introducing skill-based courses at departmental level in the college during the year 2018-19. All the departments responded positively. This implementation drive was especially important because the college is under autonomous system and there is little scope for experimenting at either designing curriculum on institutional level or running courses on self-financing basis. All the courses have been in function in regular programme structure. However, they equip students with basic and missing knowledge or skill in the discipline they belong to.

Name of the select courses from B.Com and B.A. show the knowledge and skill that students would acquire:

Quantitative Techniques, Computer Applications, Entrepreneurship Development, Corporate Law, Economic Planning in India, Commercial Arithmetic, etc. Computer Application, Film Appreciation, Drama Appreciation, Workshop on Painting and Exhibition, Trekking, GIS and GPS, Business Awareness, Personality Development & Life Skills, IT for Management, Professional Aptitude and Logical Reasoning.

The syllabi have been designed incorporating components from NET/SLET/UPSC/KPSC/CA/ CS/ICWA/CAT/MAT/ syllabus and requirements of competitive examinations.
